

Together, we can save a life

Fact Sheet

Disaster Services

Logistics Simulation ARC 3071 2F

Course Purpose

The purpose of this training is to provide participants an opportunity to practice the knowledge and skills needed to run a successful logistical operation in their local chapter.

Learning Objectives

- Describe the logistical needs of a relief operation.
- Identify and use a variety of resources to meet the needs of other functions.
- Demonstrate knowledge of transportation, facility, and supply procedures.
- Address common logistical problems effectively.

Participants

Participants will be Red Cross paid and volunteer staff who provide logistical support to relief operations in their own community.

Required

- Introduction to Disaster Services (ARC 3066)
- Logistics: An Overview (ARC 3071-1)

Length

The course contains four hours of instruction. It may be offered in a one-day format including 1 ½ hours for breaks for a total length of 5 ½ hours. It may also be offered over two days with 2 ½ hours on the first day, and 2 hours on the second day including breaks. Attendance the entire time is necessary.

How the Course Is Scheduled

The sponsoring Red Cross unit schedules the course for a suggested minimum of 6 and a maximum of 20 participants.

Instructors

This Basic Disaster Training Course is taught by a team of authorized Disaster Services instructors who have experience in the Logistics function. Instructors must be familiar with current disaster regulations and procedures, Red Cross agreements with other agencies that provide disaster relief, and the disaster plan of the local service delivery unit.
